SINGLE LEG INCOME PLAN

A SUSTAINABLE **PASSIVE EARNING MODEL**

The **Single Leg Income Plan** is designed to provide a structured opportunity for building long-term passive income, making it suitable for both investors and networkers. Once you activate your **Basic Membership with 30 USDT (BEP20)**, you are automatically enrolled in the **Single Leg Chain**, giving you access to the earning opportunities available under the plan.

All the new active members joining after you will be placed below you and thus the member counting starts.

The **Single Leg Income Plan** consists of **15 earning stages**. As new active members join after you and the required member count for each stage is achieved, you become eligible to receive **Single Leg Income** according to the plan. This model allows you to participate in earning opportunities **without the need to personally build or manage a large team**, as your position in the Single Leg Chain determines your eligibility for the respective stages.

You can earn more than 100000 USDT BEP20
